HS256 S3

External hard drive with BSI certification

Professional solution for governments and enterprises

The HS256 S3 ensures the confidentiality of the data by the following security mechanisms:

1. Encryption

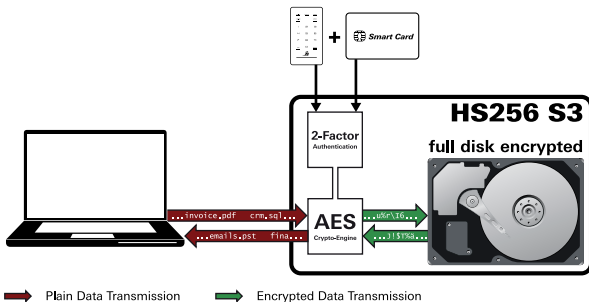

256-bit full-disk AES standard encryption in XTS mode using two 256-bit crypto keys

2. Access Control:

Two-factor authentication using smart card and 8-digit PIN according to the principle „owning and knowing“

3. Management of cryptographic keys

The cryptographic keys can be created, changed and destroyed on the smart card by the user

Other features:

- USB 3.0 with up to 200 MB / s
- elegant metal case
- BSI certified according to CC EAL 2
- enables secure and cost-efficient data transport of sensitive data as well as the creation of data protection compliant backups
- Capacities:

HDD: 500GB, 1TB, 2TB

SSD: 500GB, 1TB, 2TB, 4TB
